OVER THREE DOZEN NEW PROVIDERS JOIN CORNELL SCOTT-HILL HEALTH CENTER, IMPROVING ACCESS TO CARE FOR PATIENTS

New Haven, CT. — The Cornell Scott-Hill Health Center, a leading provider of community healthcare for forty-five years, is pleased to announce the addition of over three dozen new providers to its staff.

Since September 2013, forty new providers including physicians, behavioral health clinicians and a dentist have joined the health center's care team, increasing patients' access to care.

"We are thrilled to have welcomed so many new, top-notch providers to our team over the past year," said Michael Taylor, the health center's CEO. "Having these additional providers onboard has allowed us to increase the number of available patient appointments including same day appointments, significantly increasing our ability to see patients in the timely manner they deserve."

The forty new providers, which include sixteen primary care givers, six specialists, seventeen behavioral health clinicians and a dentist, join a staff that is now over 500 strong and growing.

In addition to the new providers, the health center has hired additional staff to support the providers, all part of the health center's new Patient Centered Medical Home care model. These positions include registered nurses, licensed practical nurses, medical assistants and detox technicians.

"It has been a very exciting time for the health center. To grow and expand is very rewarding especially when you look at what that growth really means—more help for the people in the communities we serve," said Taylor.
