HEALTH CENTER PARTNERS WITH WALGREENS TO PROVIDE LOW-COST PRESCRIPTIONS TO PATIENTS

New Haven, CT — The Cornell Scott-Hill Health Center, a leading provider of community healthcare for over forty years, is pleased to announce its new partnership with Walgreens.

The health center and Walgreens have teamed up to provide low-cost prescriptions for health center patients who may not be able to access the health center's own pharmacy. The health center's pharmacy participates in the Federal 340B drug program, which allows it to offer reduced pricing on medications for the Center's uninsured patients. This partnership will now allow the Center's uninsured patients to receive low-cost prescriptions at participating Walgreens throughout New Haven County.

"This partnership just made sense. We need to be forward-thinking and always exploring ways to make access to care, as well as access to critical medications, as easy and as affordable as it can be for our patients. This partnership does that. It removes barriers such as transportation by allowing patients to receive the best price available on their medications at a location that is convenient for them," said Michael Taylor, CEO of Cornell Scott-Hill Health Center.

If a patient is unable to get his/her prescription filled at the health center's pharmacy, he/she can take it to one of fourteen participating Walgreens locations in New Haven County. The Walgreens pharmacy staff will then check all available pricing for the prescription, including 340B rates, and will fill the prescription at the lowest available price.

Participating Walgreens locations include:

Branford:

329 E Main St, Branford

Hamden:

1191 Dixwell Ave, Hamden
1697 Whitney Ave, Hamden

Milford:
